W.L. WELLER FULL PROOF

William Larue Weller pioneered the use of wheat in place of rye, creating a smoother, softer style of bourbon that became his signature. Bottled at 114 proof, the same strength it entered the barrel, this non-chill filtered wheated bourbon retains all the natural oils and flavors developed during distillation and aging, which may cause it to appear cloudy when chilled. The result is a whiskey with a rich mouthfeel, layered with robust notes of vanilla and oak, crafted for enthusiasts who seek authenticity and honoring the man who made wheated bourbon legendary.

Albert Bacon Blanton was the President of Buffalo Trace Distillery from 1921-1952. During that period Colonel Blanton created his very special and limited supply of bourbon - his private reserve - handpicked and stored in what now is known as the famous Warehouse H. Although Colonel Blanton died in the spring of 1959, his legacy lives. Introduced in 1984, Blanton's namesake bourbon was the first ever Single Barrel Bourbon sold commercially. The Single Barrel Bourbon is the first of its kind.

OLD FORESTER 1924

The Whiskey Row Series' 1924 10 – Year – Old is a limited annual release celebrating another milestone in Old Forester's storied history.
During Prohibition, more than 200 distilleries were forced to close. Old Forester, however, continued operations because the federal government issued us one of six medicinal licenses, P-3. In 1924, Old Forester acquired barrels from closed distillers, with different mash bills, and bottled that liquid as Old Forester. This release commemorates that moment in time.

BOOKER'S LITTLE BOOK

In 2012, Fred Noe, 7th Generation Beam Family Master Distiller, asked his son Freddie if he was sure he wanted to be in the family business. Freddie didn't hesitate - he said yes.

Little Book® is Freddie's passion in a bottle and his way of honoring his granddad and family. The name "Little Book" was the nickname given to Freddie growing up by his granddad Booker.

Little Book® is an annual limited release series that will feature new, unique blends crafted and blended by Freddie and bottled uncut and unfiltered in honor of his grandfather.

BOOKER'S®

LITTLE BOOK "INFINITE"

The Little Book Infinite series runs parallel to Beam's standard Little Book releases. The concept for the Infinite Editions was inspired by the "infinity bottle," which is a practice among bourbon enthusiasts where you have a continuously evolving blend, adding whiskeys from other bottles and never fully emptying the master blend bottle itself. Pouring it and then continually adding whiskey back into it means the ever-evolving blend will contain a portion of every whiskey ever added, even if in diminishing percentages over time.

RHF is the highest proofed bourbon out of the mashbill #2 standard releases (not including special Blanton's bottlings)
